

Green Corn Eliminator (GCE)

More power to you.

Putting every kernel of excellence to work for you.

How it works:

The **Magnuson CCM Green Corn Eliminator** automatically separates unhusked ears of corn for recycling by feeding clean ears to whole-kernel cutters without leaving an ear behind.

Technical Information:

- Power requirements:
 - 110 Volts AC 60 Cycle (US)
 - 220 Volts AC 50 Cycle (Europe)
- Maximum operating temp: 140°F (50°C)
- Dry air supply: 50 to 100 PSI
